Content that the Pure Connect App cannot support (streaming via Wi-Fi)

There are many third-party apps that cannot be streamed on the Jongo over a Wi-Fi connection due to content restrictions. Some examples include but are not limited to:

Apple -Any tracks that you have purchased that are copy-protected by Apple's FairPlay DRM system. These will usually be older songs purchased from the iTunes store before 2009.

Google Music /YouTube– This will not stream through the Pure Connect App

Note – You can stream these tracks via Bluetooth to your Jongo.
