How to pair a Bluetooth device [Moment, Moment Charge]?

INSIDE / AQIPA - 2025-07-04 - Moment

Would you like to pair your phone or another Bluetooth device to your Moment?

1. When you switch to Bluetooth mode for the first time by pressing the "Bluetooth" button, it will automatically enter pairing mode.

2. All you need to do is go to the Bluetooth settings on your device (e.g. your phone) , find Moment in the list, and select it to pair.

3. The next time you enter Bluetooth mode, Moment will automatically try to reconnect to the last connected device.

4. To pair a new device or if you need to re-pair, first press the "Bluetooth" button on the top of the radio.

5. If no device is currently paired, Moment will automatically enter pairing mode. If you want to pair a new device, press and hold the Bluetooth button for 2 seconds.

6. Alternatively, you can press the Home button while being in Bluetooth mode, use the "select" dial to scroll to "Pair/Unpair", and press the dial to select.

7. Then, go to the Bluetooth settings on your device, find Moment in the list, and select it to complete the pairing.

You’re now connected via Bluetooth and ready to enjoy your music wirelessly with Moment.
