Which NAS boxes are compatible?

Here you'll find a list of NAS (Network Attached Storage) boxes that are known to work well with Pure internet radios. The list has been compiled based on feedback from Pure customers using these boxes. Not all have been tested and confirmed here at Pure but this should give you a good starting point if you are looking at NAS support.

- **Buffalo Link Station HD500GL - firmware version 2.10**
- **Synology CS407e NAS**
- **Buffalo Link Station Mini LS-WS500GL/R1 - firmware version 1.05.**
