How to pair a Bluetooth device with a Classic Stereo Mini?

Customer Support - 2025-10-10 - [Classic Stereo Mini](#)

Would you like to pair your phone or another Bluetooth device with your Classic Stereo Mini?

When you switch to Bluetooth mode for the first time by selecting Bluetooth as a source, the Classic Stereo Mini will automatically enter pairing mode.

All you need to do is go to the Bluetooth settings on your device, find Classic Stereo Mini in the list, and select it to pair.

The next time you enter Bluetooth mode, Classic Stereo Mini will automatically try to reconnect to the last connected device.

You're now connected via Bluetooth and ready to enjoy your music wirelessly with Classic Stereo Mini.

To pair a new device or if you need to re-pair/unpair a device, keep the "**Bluetooth**" button on your remote pressed until "**Pairing**" is displayed.

If no device is currently paired, Classic Stereo Mini will automatically enter pairing mode.
