

How to use the new Airable Internet Radio Software / Platform

INSIDE / AQIPA - 2024-11-04 - General Internet Radio Questions

You would like to use the new Airable Internetradio platform?

Like all other major radio brands, Pure has also switched its internetradio service provider from a company called Frontier Nuvola Smart Radio to a German company called airable GmbH.

For you as a user nothing much will change unless you have used the favourites function with the old Nuvola Smart Radio. To transfer your old list to the new airable system you have

to follow a few simple steps that we outlined below.

1. [create a new account](#) with [airable](#)

Login to your account

Frontier Smart transition
From the 1st of November, Frontier has transferred the radio portal to Airable. You will need to [create a new account](#) you will be able to import your favorites.
