iPad shows 'No Charge' on my Highway 300Di

Laura - 2021-10-19 - Highway 300Di

You'll see the '**No Charging**' message appear on your iPad if you have connected to Highway 300Di with the Highway set to '**DAB**' mode.

With the Highway 300Di device in DAB mode, the iPad device is actually taking a very low trickle charge (despite the message shown), but a full iPad charge will only be obtained with the Highway 300Di in '**iPod**' mode.
