How to adjust the light on a Woodland Glow? Customer Support - 2024-10-30 - Woodland Glow

You would like to create a special light atmosphere?

- 1. To use the light option, turn the Woodland Glow on. This is confirmed by a sound.
- 2. You can now activate the light by turning the "Dimmer" knob.
- 3. The Woodland Glow will start to increase the brightness with a cold white light, followed by increasing the brightness of a warm white light.

Choose your personal light temperature to create a special atmosphere accompanied by great sound.
