Highway 200 Firmware Update

Customer Support - 2025-01-30 - Highway 200

How to update your Highway 200

1. Connect the Highway 200 to a power source via the USB power cable (this could be a PC) and turn it on.
2. Connect the Highway 200 to a PC using a **separate micro USB** cable plugged into the socket at the bottom of the radio, **do not use the USB power cable.**
3. Select Home - Settings - USB update - Confirm
4. The Highway 200 will appear on your PC as a mass storage device
5. Copy the update file ‘‘Highway_200_V1.2_1.31_APP.rel’ to the Highway 200 Drive
6. Remove the **micro USB** cable
7. The Highway 200 Software will be installed automatically and then correctly boot.
