Important Notice Regarding the DAB+ Upgrade Page

The DAB+ Upgrade page has been discontinued and is no longer available.

As part of our ongoing commitment to security and reliability, we reviewed the platform supporting this service. Due to its age and the limitations of the underlying technology, it is no longer possible to maintain the site to the security standards that we require.

For this reason, we have decided to permanently remove the service rather than continue operating it with potential security risks.

We apologize for any inconvenience and thank you for your understanding.
