How to scan and select DAB stations on a Classic H4i/Classic C-D6i?

Customer Support - 2026-05-05 - Classic H4i

You would like to search for DAB+ radio stations and select them on your Classic H4i/Classic C-D6i?

When you use your Classic H4i/Classic C-D6i for the first time, the DAB scan is performed automatically. All available stations are found and saved in the **'Station list'**.

1. To change the DAB station, turn the **'Select'** knob one click while you are in DAB mode.
2. The **'Station list'** is displayed.
3. You can now scroll through the available stations by turning the rotary knob.
4. When you have found the desired station, press the **'Select'** control to switch to this station.

For a new scan, simply press the **'Home'** button in DAB mode, select **'DAB configuration'** in the **'Settings'** and then **'DAB station scan'**.

Your radio will now delete all stored DAB stations and automatically start searching for all available stations.
