How long does it take to charge my DiscovR speaker?

Laura - 2021-10-19 - General Questions

When using a USB charger with a rating of 2 amps, it will take around 4.5 hours to charge. If you are using a fast-charging USB-C power charger/cable and plug (3-amp rating), this will charge in approximately 2.5 hours.

Note: If using the speaker while it is charging, charging time will increase.
