Supporting new BBC IR broadcast standards

Customer Support - 2023-06-23 - Internet Radios

A software supporting the new broadcasting standards has been created for the Pure **Evoke C-F6** and the Pure **Evoke F-3**. This is available as an OTA (over the air) update. You will be prompted to confirm the update to install. Alternatively, there is also the option to start a manual update via the unit's menu.

Please follow the steps below.	
Select Main menu	
Select Main menu	
Navigate to System settings	
Choose Software Update	
Select Check now and follow the instructions prompted.
