PURE

Supporting new BBC IR broadcast standards

Customer Support - 2023-06-23 - Internet Radios

A software supporting the new broadcasting standards has been created for the Pure **Evoke C-F6** and the Pure **Evoke F-3**. This is available as an OTA (over the air) update. You will be prompted to confirm the update to install. Alternatively, there is also the option to start a manual update via the unit's menu.

Please follow the steps below.

Select Main menu

Navigate to System settings

Choose Software Update

Select Check now and follow the instructions prompted.
