How can I change FM stations on an Evoke Spot/Play? Customer Support - 2024-11-14 - Evoke Play

You would like to save and change your FM Stations on your Evoke Spot/Play?

- 1. When you switch to FM mode for the first time, press the "Home/select" button to enter the menu.
- 2. Enter "Scan setting" and select "Yes" or "No" for "Strong stations only?".
- 3. Enter "Audio setting" to choose if you want to listen in Mono only, in case you experience weak FM reception.
- 4. To manually search for stations, hold the up/down arrow keys, or the Skip fwd/Skip bwd keys pressed for 1 second to start the station seek.
- 5. To access FM stations stored in the presets, short press the "Favourite" button on the radio while being in FM mode. This will open the "Recall from Preset" list. Your fist 4 presets can also be recalled by pressing the direct access preset buttons beneath the Volume encoder.
- Use the up/down arrow keys to move through the list of available stations. Once you've found the station of your choice, press the "Home/select" button to switch to that station.
