How to pair a Bluetooth device with a Classic Stereo?

Customer Support - 2025-09-29 - Classic Stereo

Would you like to pair your phone or another Bluetooth device to your Classic Stereo?

When you switch to Bluetooth mode for the first time by selecting Bluetooth as a source, the Classic Stereo will automatically enter pairing mode.

All you need to do is go to the Bluetooth settings on your device, find Classic Stereo in the list, and select it to pair.

The next time you enter Bluetooth mode, Classic Stereo will automatically try to reconnect to the last connected device.

You’re now connected via Bluetooth and ready to enjoy your music wirelessly with Classic Stereo.

To pair a new device or if you need to re-pair/unpair a device, keep the "**Bluetooth/Pair**" button pressed until "**Bluetooth Discoverable**" is displayed.

If no device is currently paired, Classic Stereo will automatically enter pairing mode.
