How can I pair a Bluetooth device with my Evoke Spot/Play?

Customer Support - 2025-07-18 - Evoke Spot

You would like to pair your phone or another Bluetooth device to your Evoke Spot/Play?

When you enter Bluetooth mode for the first time by selecting Bluetooth Audio as a source, or short pressing the “**Bluetooth**” button, the Evoke Spot/Play will automatically enter pairing mode.

All you need to do is go to the Bluetooth settings on your device, find Evoke Spot/Play in the list, and select it to pair.

The next time you enter Bluetooth mode, Evoke Spot/Play will automatically try to reconnect to the last connected device.

You’re now connected via Bluetooth and ready to enjoy your music wirelessly with Evoke Spot/Play.

If no device is currently paired, Evoke Spot/Play will automatically enter pairing mode.

You can also enter Bluetooth pairing mode by long pressing the “**Bluetooth**” button.
