How to change the EQ settings on a Classic Stereo?

Customer Support - 2025-09-29 - Classic Stereo

You would like to change the EQ audio settings on your Classic Stereo?

1. To reach the EQ settings on the Classic Stereo, press the "**Home**" button on the main unit, or your remote.
2. Enter the "**System settings**" and choose "**Equaliser**".
3. Confirm by pressing the "**Volume/Select**" dial/button.
4. You can now select from Dynamic, Comfort, Neutral, Night, Custom EQ and the option to personalise your sound using the “Custom EQ Setting”.
5. Entering the “Custom EQ Setting” allows you to manually set **Bass** and **Treble**, and to select **Loudness** On/Off.

You can also reach the EQ using the "**EQ**" button on your remote control.

Repeatedly pressing the "**EQ**" button lets you toggle through the different modes.

Pressing the "**Night**" button will directly activate the night mode.

The different modes are:

Dynamic - Deep bass extension - dynamic vocals and instruments

Comfort - Easy listening all day

Neutral - Sound as close to the source material

Night - Prevent sudden increases in Bass and Treble

Custom EQ - Define your own character with Bass and Treble controls
