I've heard that you need a Spotify Premium account to use Spotify Connect. Is this true?

Laura - 2021-10-19 - General Questions

Yes, to use Spotify Connect on Pure devices, you will need a Premium account. This may change with release of future firmware updates but currently is not possible to connect with Spotify Free. Please use the Bluetooth connection to send Spotify to your Pure radio in the meantime.

To check all devices for Spotify Connect compatibility, see the link below:
