Billing address different from the delivery address

David Lackner - 2021-10-11 - Shipment

You are welcome to have your order delivered to an address other than the billing address, such as your workplace. To do this, simply select the payment methods PayPal, credit card or Sofort Überweisung and enter the desired delivery address under the heading "Delivery address". Unfortunately, this service is not possible with the payment method "Purchase on account" for security reasons.
