## How to scan and select DAB stations on a Classic Mini?

Customer Support - 2024-10-18 - Classic Mini

### **You would like to search for DAB+ radio stations and select them on your Classic Mini?**

When you use Classic Mini for the first time, the DAB scan happens automatically. All available stations are found and saved in the "**Station List**".

1. To change the DAB station, tap one of the "**Skip**" buttons to access the "**Station List**".
2. You can now scroll through the available stations by turning the "**Volume/Select**" dial.
3. Once you've found the station you wish to listen to, press the "**Select/Volume**" dial to switch to that station.

For a **new scan** simply press the "**Home**" button while being in DAB mode and select the option "**DAB Scan**".

Your radio will then delete all stored DAB stations and automatically begin scanning for all available stations.
